

(Conv. N. KA220 - N. 2021-1-IT01-KA220-VET-000028100)

PROGRAM AND ORGANISATION

THE MEETING

The "**4th ADELE-RS Transnational Meeting**" is organized in MALTA by the University of Malta and the Belt Victoria Foundation.

The Meeting is the fifth meeting of the ADELE-RS Project Partnership including also the Extraordinary Transnational Meeting held in Gerace (Italy) at the end of July 2023.

This meeting is very important because it will allow us, in particular, to:

- verify the conclusion of the project phase of the Didactic Modules of the Experimental Specialization Course that we will carry out in 2024 and the start of the production phase of the teaching materials;
- define the general procedures for the recruitment of trainees of the Experimental Course and for the organization of the internship phase (training-on-the-job) and the Didactic Planning phase of the related Module;
- check the availability of the articles necessary for the completion new issues of our Magazine;
- get to know in detail the e-Learning and e-Stage infrastructure set up by the Politehnica University of Bucharest and define the criteria for the uploading of the materials
- establish the criteria for the creation of the Virtual Didactic Site and the types of content with which to feed it;
- formalize the request for extension of our Project until 30 September 2024.

Due to the extensive work programme, it was decided not make any public presentation of the Project at this stage in Portugal – postponing this activity to the Multiplier Event scheduled in 2024 – and to focus all participants' attention on the work to be done.

The Meeting will take place at the sites of the two Maltese Partners: the first day at the University of Malta and the second at the Belt Victoria Foundation on the Island of Gozo.

MANAGEMENT

MEETING VENUES

The venues of the Meeting are

University of Malta

Faculty of Science

Maths and Physics building - Ground floor - Main boardroom

Msida MSD 2080, Malta

www.um.edu.mt/
